## Education

**Annamalai University, Chidambaram**

Bachelor of Engineering in Computer Science and Engineering (Data Science)

2020 – 2024

**8.48/10 CGPA**

**Chellammal Matric girls Hr School, Vengur, Trichy**

Higher secondary School (Stateboard)

2019 – 2020

**Percentage-57 %**

## Technical Skills

- **Programming:** Python, SQL, HTML, CSS, JavaScript, PHP
- **Data Analysis:** Pandas, NumPy, Data Cleaning, Data Transformation
- **Machine Learning:** Scikit-learn, TensorFlow, Classification, Regression, Model Development, Natural Language Processing (NLP)
- **Visualization:** Tableau, Matplotlib, Excel (Advanced)
- **Tools:** Jupyter Notebook, VS Code
- **Web:** Responsive Design, Authentication, UI/UX, Cross-browser Compatibility

## Projects

### Womandura – PCOD Support Web Application

- Developed a health tracking web application using HTML, CSS, and JavaScript, improving user interaction efficiency by 30%.
- Implemented authentication and dashboard features to manage 100+ user health records.
- Identified and fixed 15+ bugs through debugging and testing, improving system reliability.

### Gastrointestinal Disorder Detection Using RNN

- Built a deep learning model using Python and TensorFlow achieving 87% classification accuracy.
- Processed and cleaned 8,000+ medical images using normalization, resizing, and noise removal.
- Improved model performance by 12% through testing, error analysis, and tuning.

## Experience

### XL Management Services, Chennai

Mar 2025 – Sep 2025

#### Full Stack Trainee

- Assisted in developing and maintaining 5+ responsive web applications using HTML, CSS, JavaScript, and PHP.
- Diagnosed and resolved 20+ technical issues through debugging and troubleshooting.
- Completed 10+ assigned development tasks within deadlines following team workflows.
- Improved website load performance by 18% through testing and optimization.

### Shiash Info Solutions Pvt Ltd, Chennai

Jul 2022 – Sep 2022

#### Data Science Intern

- Built a Python data processing workflow handling 50,000+ data records using Pandas.
- Performed sentiment analysis improving classification accuracy from 72% to 88%.
- Cleaned and processed large datasets reducing data errors by 25%.

## Certifications

- **Deep Learning – IIT Ropar (NPTEL)** Score: 60%
- **Machine Learning with Python – IBM (Coursera)**
- **Data Visualization: Empowering Business with Insights – Accenture (Forage)**
